

Section 5. Coordination

The development of the Draft Section 4(f) Evaluation has involved input and guidance from a variety of governmental agencies and citizens. Multnomah County has coordinated with many agencies and entities having jurisdiction over Section 4(f) properties in the project impact area. These include the Portland Parks and Recreation (PP&R), the Portland Bureau of Environmental Services (BES), Metro, River View Cemetery, and the Willamette Shoreline Consortium. In addition, Multnomah County, the Oregon Department of Transportation (ODOT), and the Federal Highway Administration (FHWA) are coordinating the historic eligibility and effects determinations with the Oregon State Historic Preservation Office (SHPO).

Because of the many city park resources within the project area, Multnomah County worked particularly close with PP&R, providing draft sections of this Draft Section 4(f) Evaluation report for review and comment and working with both PP&R and BES to establish suitable mitigation concepts. Table 5-1 lists the meetings that were held with Section 4(f) resource stakeholders over the course of the Sellwood Bridge Project DEIS project, in addition to the regular transmission of project-related communication between Multnomah County and stakeholders.
